TRANSPORTATION SYSTEM – MULTIMODAL PERSPECTIVE

As a result of a Constitutional Amendment approved by voters on November 6, 1979, effective January 1, 1980, the Commission's responsibilities expanded to include oversight of aviation, transit, railways, and waterways, in addition to retaining its responsibility for highways.

A transportation system connecting all modes of transportation is essential for the mobility of all citizens and for providing opportunities for economic growth and prosperity. Therefore, it is the declared intention of this Commission to view the transportation system as a whole, incorporating all modes of transportation, and to cooperatively work with those having ownership responsibility for aviation, transit, railway, and waterway facilities, as well as interstate and local roads and streets, to ensure, as nearly as possible, a seamless inter-connected transportation system.
