Congratulations! You've got a Second Edition copy of MoDOT's "The Adventures of The Safety Friends" comic book. This comic book was created especially for you in connection with your visit to the State Fair.

As you flip these pages, you'll learn how Wonder Click and Safe Ride patrol the city of Safeville to help people avoid crashes and stay safe. This comic book also features fun exercises and important information about how you, your family and your friends can stay safe.

MoDOT's mission is to provide a world-class transportation experience that is safe, innovative, reliable and dedicated to a prosperous Missouri. Just like Wonder Click and Safe Ride, we work to keep our citizens and employees safe as they travel our state.

We hope you have as much fun reading about The Safety Friends and doing the fun exercises as our team did in creating the comic book!

HAPPY READING, AND BE SAFE.

Welcome to Safeville!

The citizens of every city in the world will tell you that their heroes are the best.

The strongest.

The bravest.

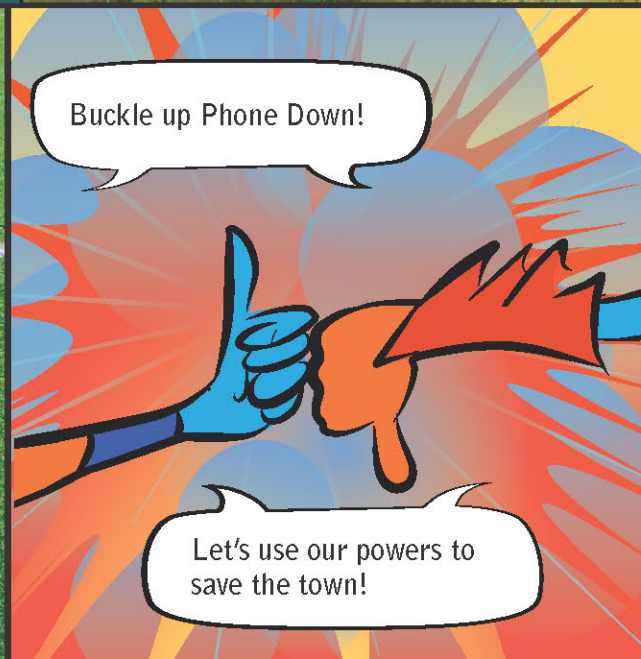

If you ask anyone in Safeville, they will tell you without missing a beat

that the best, bravest, strongest and safest hero team is their very own

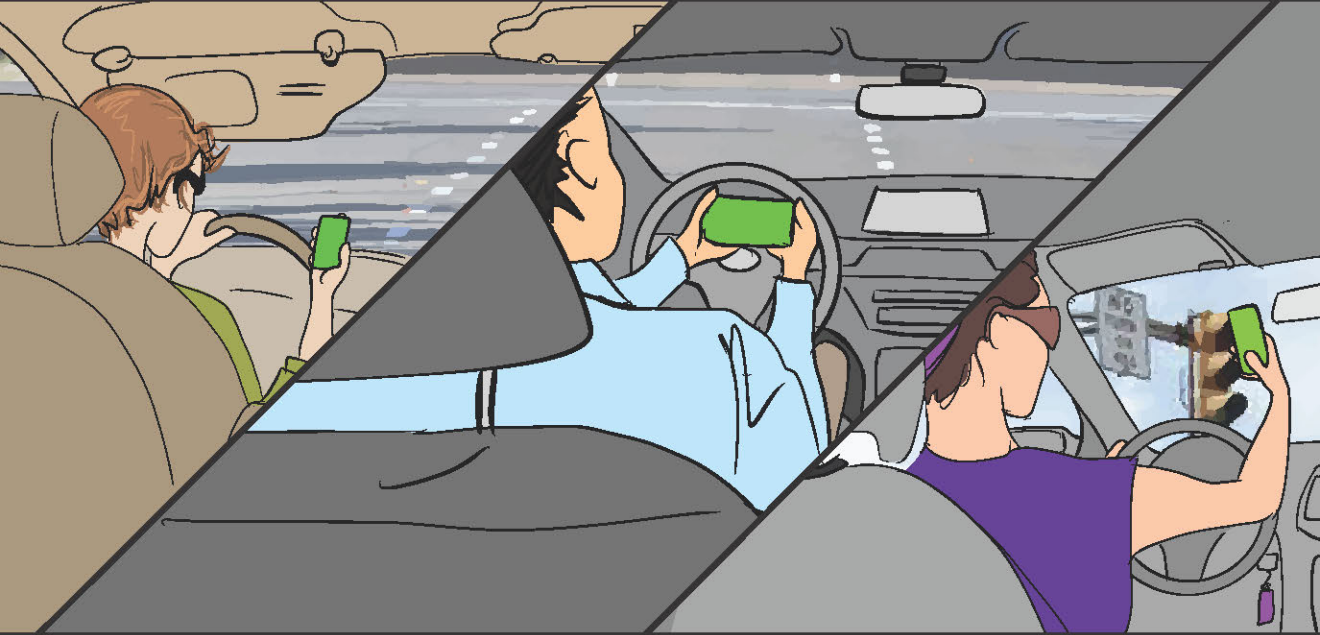

SAFETY FRIENDS!

With their safety powers activated, WONDER CLICK and
SAFE RIDE are THE SAFETY FRIENDS!

Wow! There sure are a lot of cars driving around the city today.

I just made a quick lap around the city. Every adult in Safeville is currently texting and driving! This is terrible. If we don't do something quick, they are going to have to rename our town Crashville!

Two cars are about to crash on Main Street! Quick, Safe Ride. We haven't a moment to lose! I'll take the blue car. You stop the truck!

On my way, Wonder Click!

Will our heroes make it in time to stop the crash? What is causing all the adults to be glued to their phones while driving? Will they have to rename the town Crashville? Find out after this advertisement!

Safety Belt Use

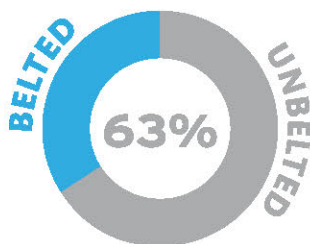

Only eleven states rank lower in safety belt use than Missouri.

What are Drivers' Odds?

IN A CRASH:

Unbelted - 1 in 29 chance of being killed.
Belted - 1 in 1,258 chance of being killed.

The REALITY:

From 2015 to 2017, 63% of all drivers and passengers killed in

crashes were **unrestrained.**

Missouri has an **87% safety belt usage rate**, yet the remaining 13% unbelted account for **over 60%** of vehicle occupant fatalities.

Missouri Statewide

687 Killed
64% Unbelted

Teens (15-19)

77 Killed
70% Unbelted

Pickup

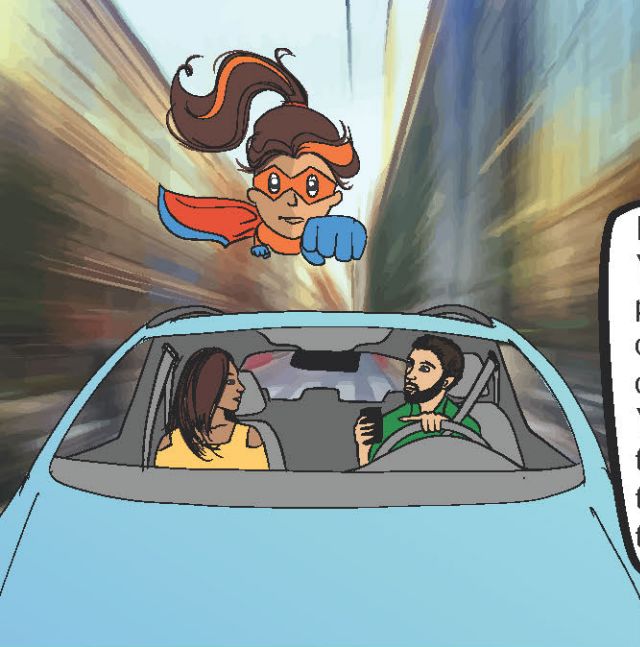

141 Killed
75% Unbelted

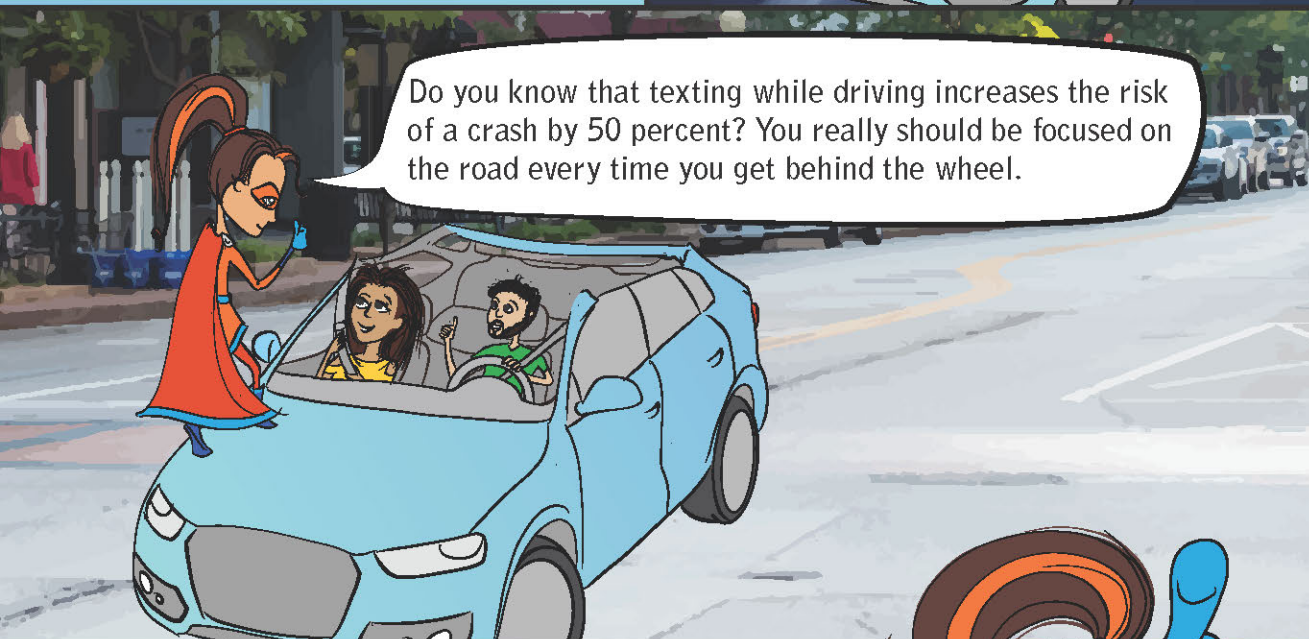

Missouri Coalition
for **Roadway Safety**

Excuse me, sir. You need to put the phone down and focus on the road! You are about to run into that truck heading this way!

Do you know that texting while driving increases the risk of a crash by 50 percent? You really should be focused on the road every time you get behind the wheel.

And miss, you also need to remember to buckle up! Seat belts save lives. Make sure you are wearing yours every time you are in a vehicle. Even if you aren't driving.

Thank you, Wonder Click! I don't know what I was thinking!

So I guess I drive a convertible now. COOL!

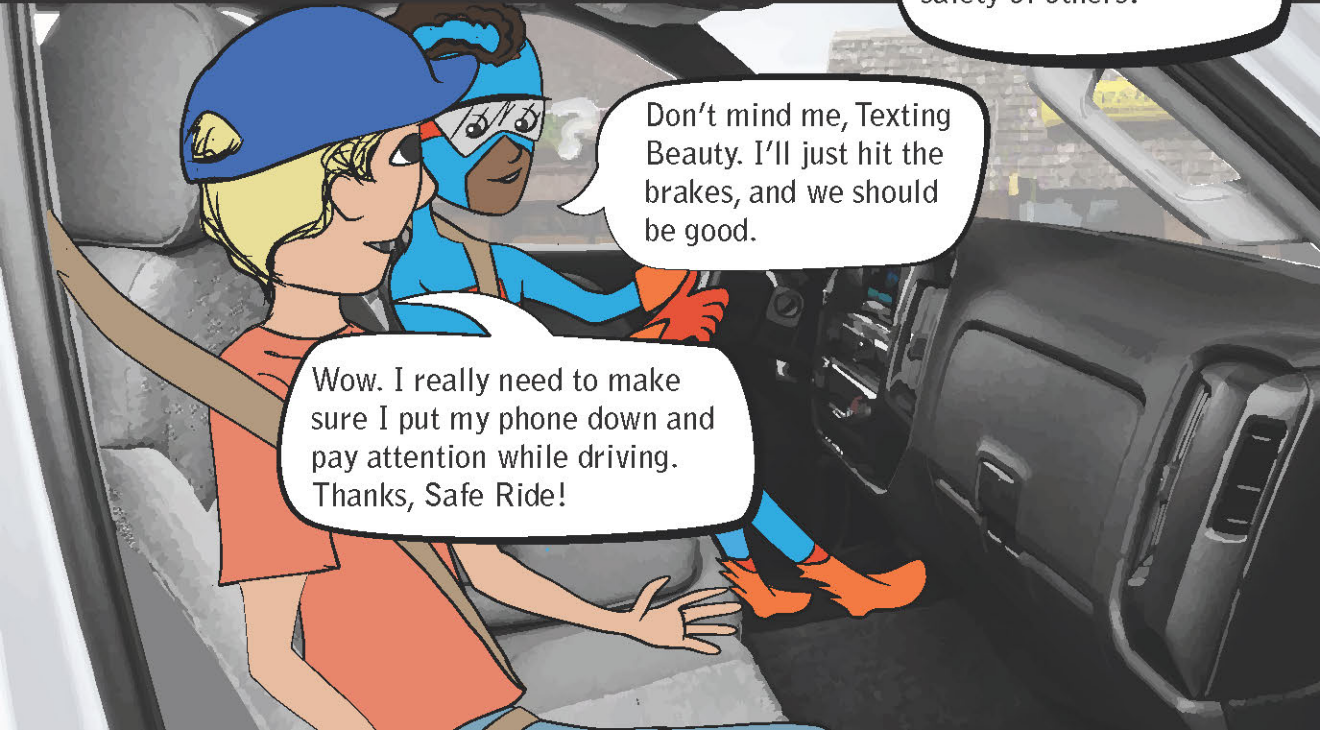

Come on, man! Are you really texting while driving? Hello? HELLO?!?!? You're about to crash into a car!

Holy texting terror! It's like this guy is being hypnotized by his phone!

Do you know that when you text and drive, you are 23 times more likely to be in a critical incident? No text, tweet, post or selfie is worth risking your safety or the safety of others!

Don't mind me, Texting Beauty. I'll just hit the brakes, and we should be good.

Wow. I really need to make sure I put my phone down and pay attention while driving. Thanks, Safe Ride!

Later that day...

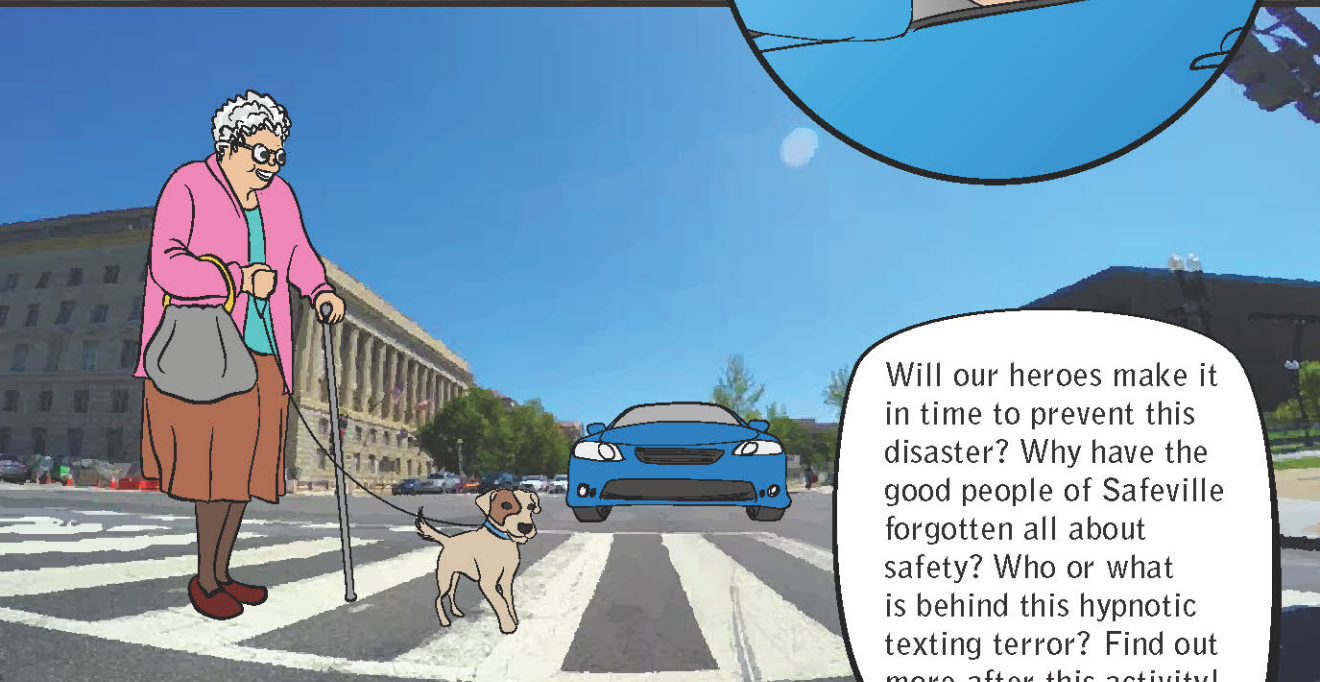

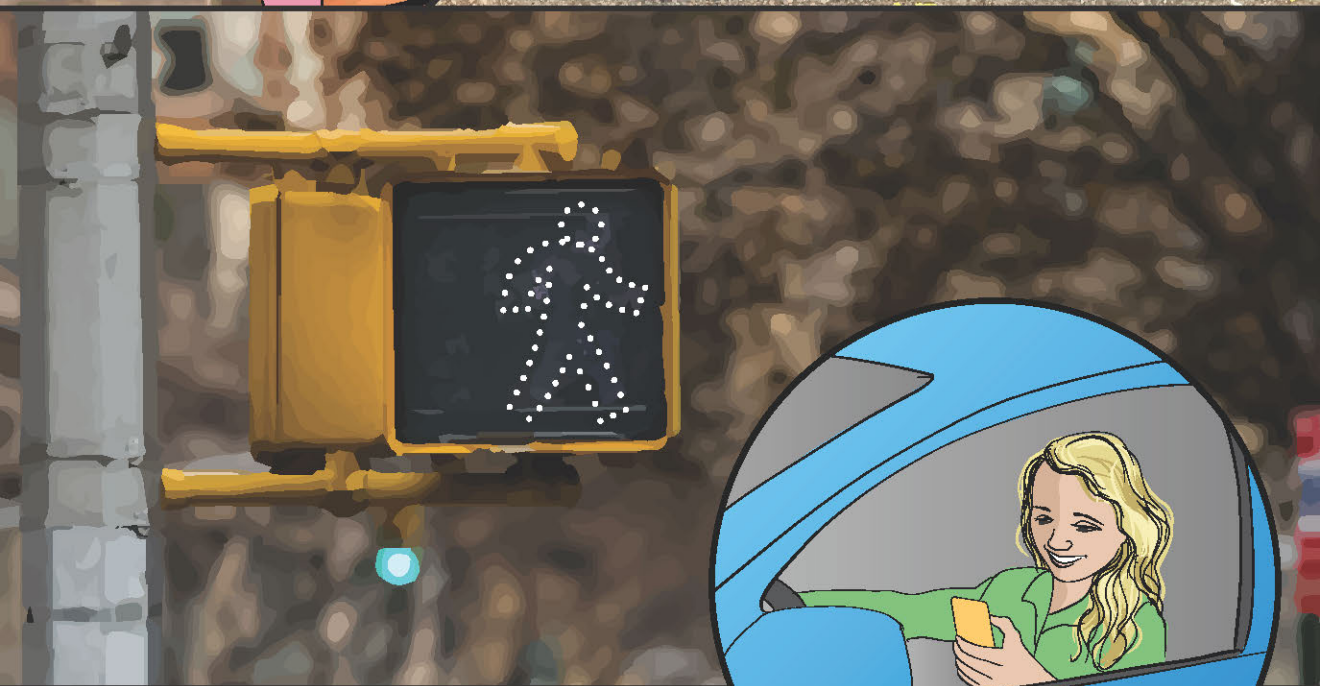

Good grief! So far today, I've stopped eight texting drivers from crashing!

I just stopped my tenth texting driver. This isn't like the people of Safeville. They know better than to text and drive. And can you believe I have had to remind five people of the importance of seat belt use? Something is very wrong, Safe Ride.

PUSH BUTTON

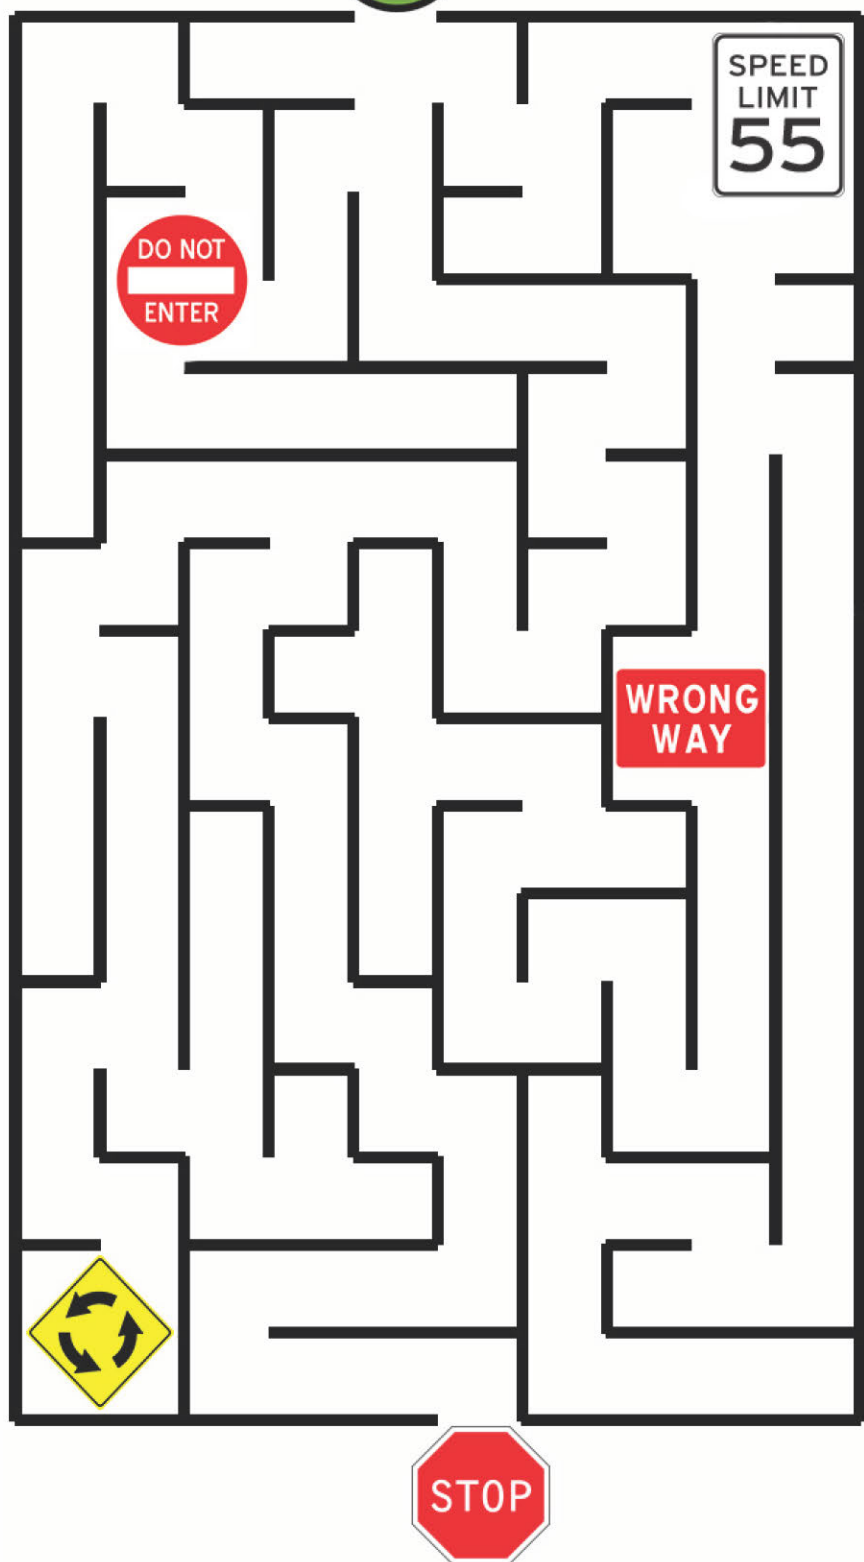

Meanwhile, across town...

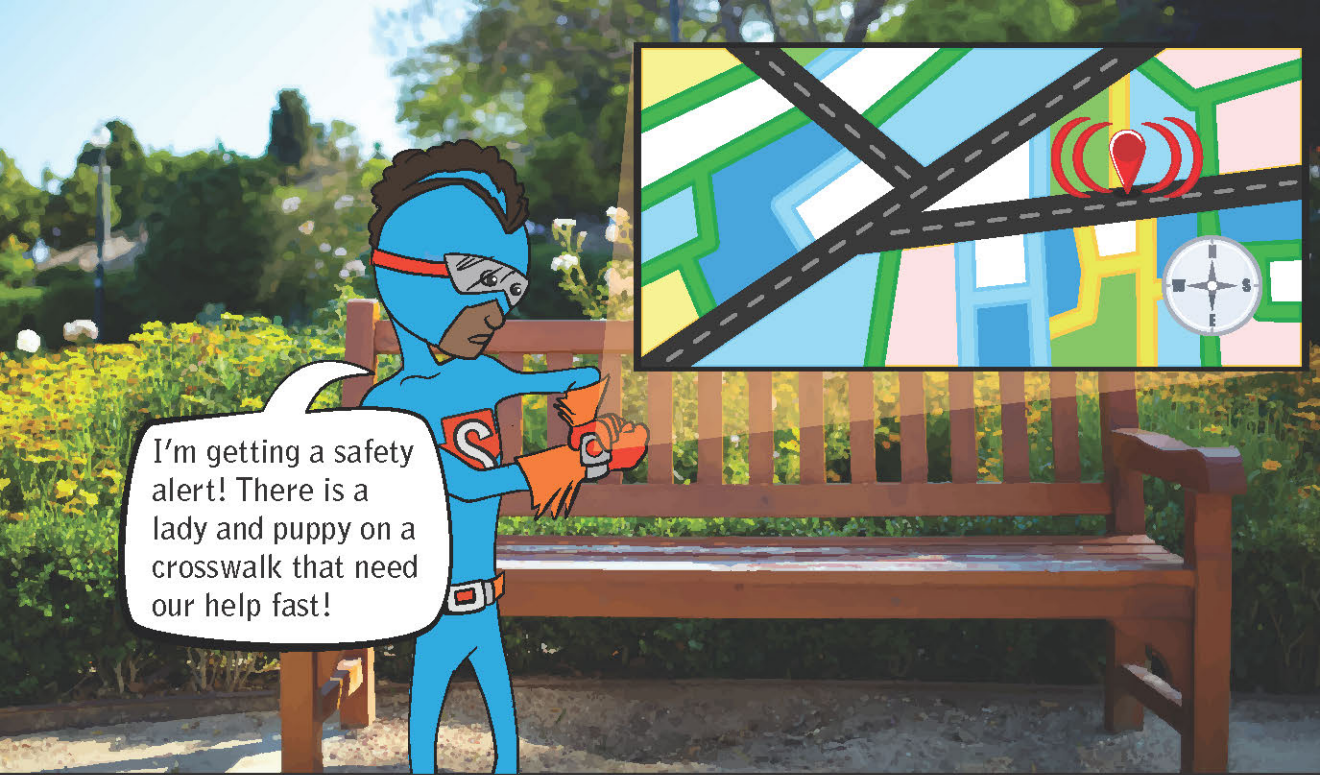

Will our heroes make it in time to prevent this disaster? Why have the good people of Safeville forgotten all about safety? Who or what is behind this hypnotic texting terror? Find out more after this activity!

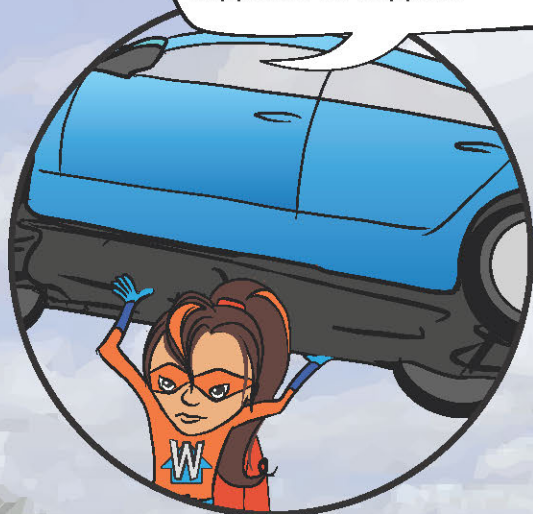

Time to take
the challenge!

Congratulations!
You made it safely out
of the maze.

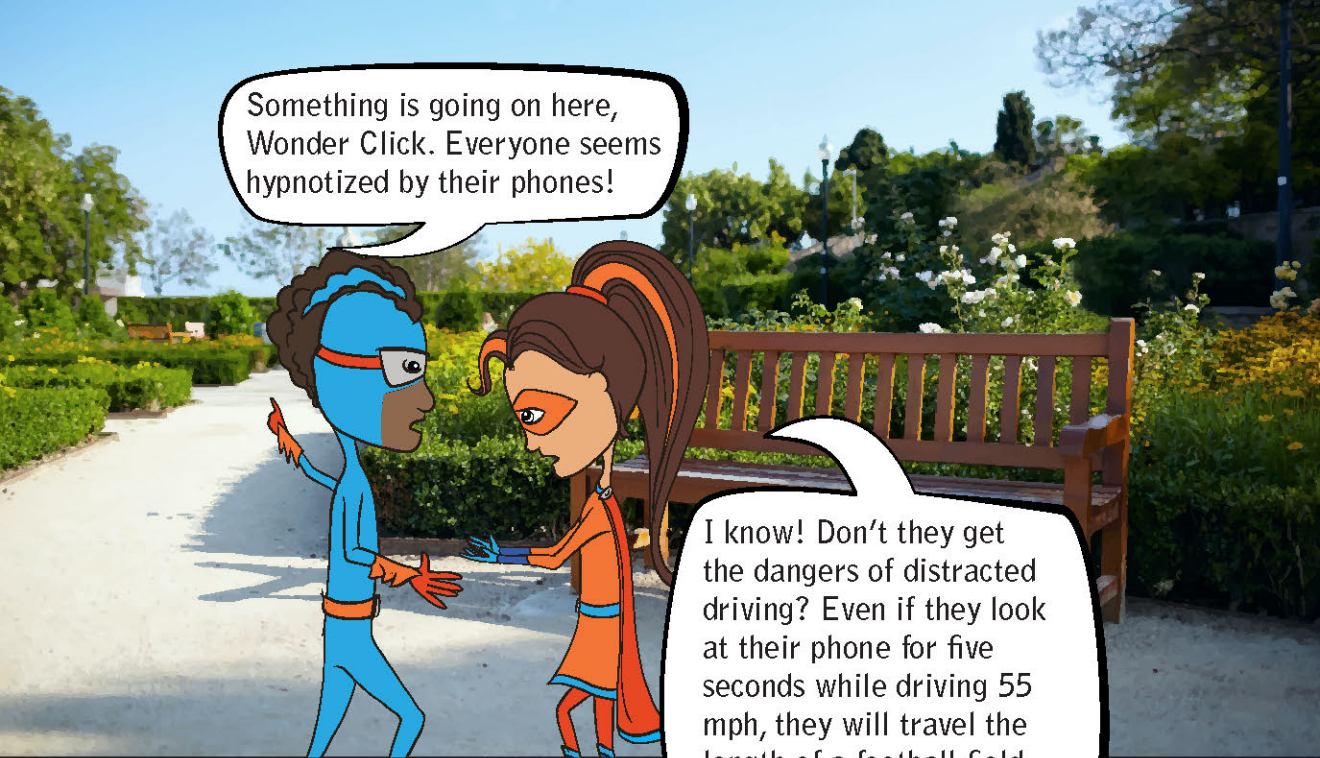

My car is flying! MY CAR
IS FLYING!! This is NOT
supposed to happen!

Thank you, young man!
Such a gentleman
helping me and Mr.
Paws cross the road.

Something is going on here, Wonder Click. Everyone seems hypnotized by their phones!

I know! Don't they get the dangers of distracted driving? Even if they look at their phone for five seconds while driving 55 mph, they will travel the length of a football field pretty much blindfolded!

With this many people hypno-texting and driving, this almost seems like the work of...

THE TEXTER!

Across the city at Safetyville Bank, the alarm is ringing, but there is no one around to hear it!

Hahahahaha! While the city is texting the day away, I will be getting RICH!!

Not so fast, Texter!

Your terrible texting tactics are being terminated, Texter! Hope you like trading your CELL phone for a jail CELL!

I don't think I am ready to head to jail just yet, Safety Friends! I think one last group message is in order!

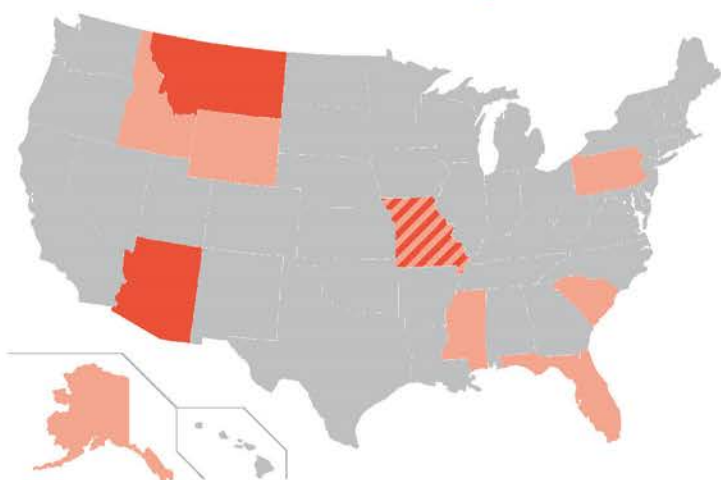

Hahahahaha!

What did the Texter just text? Who is in this group message? Will this text create more turmoil for our heroes? Find out after this advertisement!

The Dangers of Using **CELLPHONES** While Driving

In 2018, Missouri **EXCEEDED**
900 traffic fatalities for the
third year in a row.

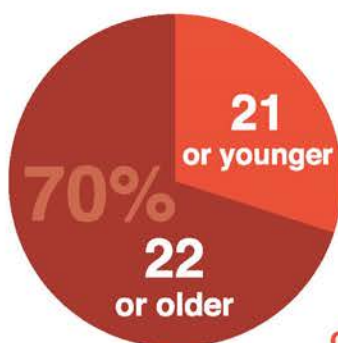

Missouri is **ONE** of **THREE**
states **without a no
texting law** for all drivers...

...and **ONE** of **TEN** states
**without a hands-free
law** for either all drivers or
novice drivers.

Since 2014, cell phone related
crashes in Missouri have
increased by **35 percent**, with
nearly 2,600 crashes in 2017.

**Distracted
driving is
not just
a younger
driver problem.**

Approximately 70
percent of drivers using cell
phones in Missouri traffic
crashes were 22 years of
age or older.

Transportation, AT&T, Governor's Highway Safety Association, and CTIA

EVERYONE.

ASSEMBLE.

DOWNTOWN.

EVERYONE.

ASSEMBLE.

DOWNTOWN.

Wonder Click, my safety alert is going off again!

That's right. You have to choose - catch me or...

SAVE THE CITY!
Hahahaha!

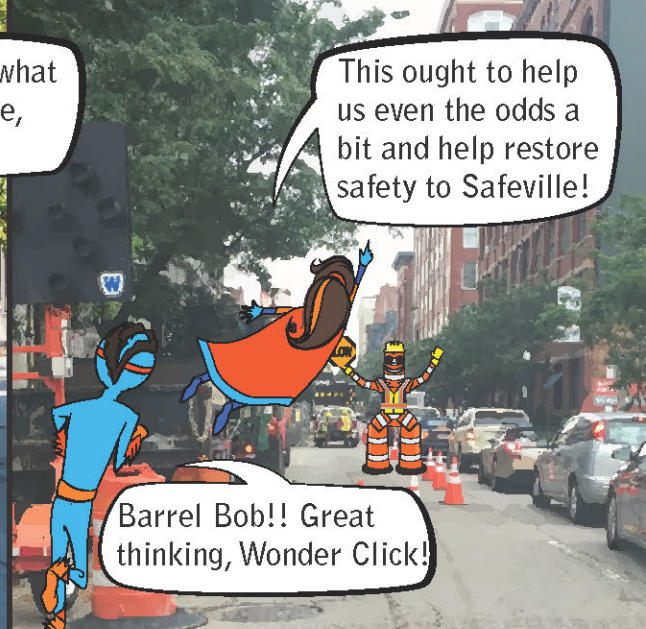

Good luck,
Safety Freaks!

Holy automotive
nightmare, Wonder
Click! What are we
going to do?

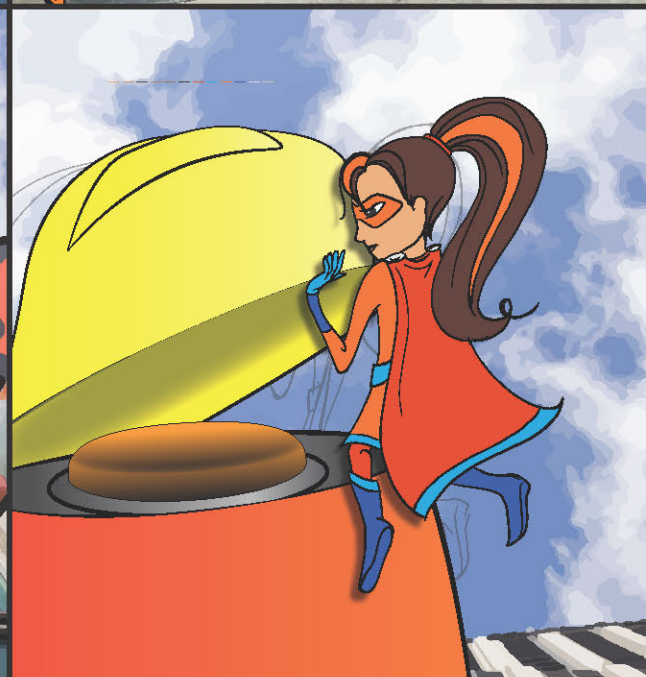

I know exactly what to do! Follow me, Safe Ride!

This ought to help us even the odds a bit and help restore safety to Safeville!

Barrel Bob!! Great thinking, Wonder Click!

Safety emergency mode. Engage.

Where has the Texter gone? Will the Safety Friends catch him? Will Barrel Bob and the Safety Friends be able to restore Safeville to Safety? Find out after this activity!

Hey, kids! Hope you enjoyed this comic. Remember that although you might not be driving yet, you can be a Safety Friend by reminding those who drive you not be distracted by their phones while they drive!

And remember to always wear your seat belt when you are riding in a vehicle. If you see someone not wearing their seat belt, ask them politely to buckle up! It only takes a couple seconds, and it makes everyone safer!
