Pete K. Rahn, Director

October 19, 2006

Dear Legislator:

We know it's important for you as an elected official to be aware of transportation projects planned or under way in your area. For your information and reference, we are attaching the most recent list of approved highway projects in your legislative district.

These projects are part of the 2007-2011 Statewide Transportation Improvement Program (STIP), which the Missouri Highways and Transportation Commission recently approved. The STIP is a comprehensive list of state transportation projects planned for the next five years, barring any unforeseen obstacles in the development process.

In addition to road and bridge projects, the STIP includes aviation, rail, waterways and public transit projects for which the Missouri Department of Transportation is responsible. You can review the complete plan online at www.modot.org. A copy is also available in the legislative library or upon request.

Public involvement is a key component in developing the STIP. It starts with us working with local governments to determine project priorities and continues through various forms of public involvement that gives Missourians an opportunity to share their thoughts and opinions.

I hope you find this information helpful. Please call me at 573-751-4622 or Jay Wunderlich, governmental relations director, at 573-751-8273 if you have any questions or comments or if we can provide you with additional information.

Sincerely,

Pete K. Rahn
Director

cc: Jay Wunderlich

Missouri Highway and Bridge 2007 – 2011 Scoping and Design Projects

The purpose of this section is to identify potential future projects. These projects may be in the evaluation stage, which is called project scoping, or may be further along in the preliminary design process. **Projects listed in this section are not commitments to construct or implement an improvement.**

After needs have been identified and prioritized, the higher priority needs are included in this section. Next, a core team is formed, comprising personnel from various MoDOT departments. The core team investigates the problem or concern. The core team develops several solutions that may be either short term or long term. Some problems have no transportation or construction solution and instead may require public education or assistance through law enforcement.

Once a solution is selected, additional preliminary design work occurs. Design progresses up to a point at which MoDOT is confident the solution will properly address the problem or concern and of the improvement's cost. The potential project moves into the next stage of the planning framework, which is the prioritization and selection of projects for construction. Projects that have been prioritized and selected for construction are listed in the construction program (see Section 4.) Only the construction projects in Section 4 represent a commitment by MoDOT to build the project.

Please see Section 2-2 through 2-5 for additional discussion regarding how a need becomes a project through the planning framework process of identifying and prioritizing needs, to developing solutions, to prioritizing and selecting projects for construction.

The amount of time a potential project spends in the scoping and design phase varies. Some potential projects are more complex than others, and they might remain in the scoping and design phase for several years. This is especially true for projects such as Missouri and Mississippi River bridge replacements, new roadway construction, or converting a two-lane road to a four-lane road.

County	Route	Job Number	Improvement and Location
Benton	MO 52	5P0922	Scoping for roadway improvements from Rte. W to Rte. 65.
Benton	MO 7	5P0866	Scoping for hydrodemolition and rehabilitation of 2 bridge decks over the Truman Reservoir from 1.8 miles north of Rte. UU to just west of Warsaw.
Benton	MO 7	5P0933	Scoping for bridge rehabilitation over the Osage River, 1.4 miles west of Rte. 65 north jct.. Project involves bridge A3017.
Benton	MO 83	5P0888	Scoping for hydrodemolition for rehabilitation of bridge deck over Truman Reservoir. Project involves bridge A3689.
Benton	US 65	5P0889	Scoping for hydrodemolition for bridge deck rehabilitation over Osage River just south of Warsaw. Involves bridge A3021.
Benton	US 65	5P0915	Scoping for resurfacing from south of Rte. 52 Jct. to Warsaw adjacent to new lanes.
Henry	MO 52	4P1876	Scoping to resurface (1 3/4" superpave asphalt) on Rte. 52 from Main Street to east of Rte. B and on Rte. 2 from Benton Street to Benton Street in the City of Windsor.
Morgan	MO 52	5P0925	Scoping for roadway improvements from Rte. 5 South Jct. in Versailles to Rte. W in Benton County.
Morgan	RT JJ	5S0930	Scoping for bridge rehabilitation over Richland Creek. Project involves bridge N0402.
Morgan	RT M	5S0861	Scoping for bridge deck replacement over Haw Creek, 0.4 mile east of the Pettis/Morgan County line.
Pettis	MO 127	5S0559	Scoping for bridge replacement over Bee Branch, 0.6 mile south of Rte. NN and over Bear Branch, 2.0 mile south of Rte. NN.
Pettis	US 50	5P0869	Scoping for pavement improvements on westbound lanes from 0.1 miles west of Rte. MM to Johnson County.
Pettis	US 50	5P0916	Scoping for resurfacing from 0.8 miles east of Rte. TT to 1.0 miles west of Syracuse.
Pettis	US 50	5P0919	Scoping for pavement improvements on eastbound lanes from Johnson County to 0.1 miles west of Rte. MM.
Pettis	US 50	5P0940	Scoping for safety improvements at intersection with Rte. 127, 9 miles west of Sedalia.
Pettis	US 65	5P0920	Scoping for bridge deck rehabilitation over Heaths Creek 1.0 mile north of Rte. BB.
Pettis	US 65	5P0934	Scoping for resurfacing from the Saline County line south to Rte. H and HH.

2007 - 2011
Highway and Bridge Construction Schedule
RSMo 21.795.2.(3)

The Highway and Bridge Construction Schedule identifies highway and bridge projects funded for right-of-way acquisition and/or construction during the five-year period between July 1, 2006, and June 30, 2011.

Projects on this schedule are funded and represent a commitment to implement an improvement, purchase right-of-way and or construct. Projects on this schedule with right-of-way funding only represent a commitment to buy right-of-way, not a commitment to construct.

There are a number of assumptions and requirements that must be met for project construction to begin. Some assumptions and requirements apply to all projects. Other assumptions and requirements vary depending upon the complexity of the project. These assumptions are:

- The assumed funding levels from state and federal sources are reached.
- All environmental requirements and clearances are obtained.
- Any legal matters are resolved.
- Right-of-way acquisition and utility relocation occur as scheduled.
- Concurrence is obtained from the metropolitan planning organizations for projects in the Columbia, Joplin, Kansas City, St. Joseph, St. Louis, Springfield, and Jefferson City areas.

Construction contingency applied to construction cost in the year the project is awarded.

Three percent inflation compounded annually is applied to right-of-way and construction costs in program years 2, 3, 4, and 5.

No inflation is applied to the Funding From Other Sources (FFOS) or Paybacks or projects in the Amendment 3 Funding Category.

Incidentals include PE costs, CE costs and R/W incidentals.
