Pete K. Rahn, Director

---

October 19, 2006

Dear Legislator:

We know it's important for you as an elected official to be aware of transportation projects planned or under way in your area. For your information and reference, we are attaching the most recent list of approved highway projects in your legislative district.

These projects are part of the 2007-2011 Statewide Transportation Improvement Program (STIP), which the Missouri Highways and Transportation Commission recently approved. The STIP is a comprehensive list of state transportation projects planned for the next five years, barring any unforeseen obstacles in the development process.

In addition to road and bridge projects, the STIP includes aviation, rail, waterways and public transit projects for which the Missouri Department of Transportation is responsible. You can review the complete plan online at [www.modot.org](http://www.modot.org). A copy is also available in the legislative library or upon request.

Public involvement is a key component in developing the STIP. It starts with us working with local governments to determine project priorities and continues through various forms of public involvement that gives Missourians an opportunity to share their thoughts and opinions.

I hope you find this information helpful. Please call me at 573-751-4622 or Jay Wunderlich, governmental relations director, at 573-751-8273 if you have any questions or comments or if we can provide you with additional information.

Sincerely,

Pete K. Rahn  
Director

cc: Jay Wunderlich

Enclosure

## **Missouri Highway and Bridge 2007 – 2011 Scoping and Design Projects**

The purpose of this section is to identify potential future projects. These projects may be in the evaluation stage, which is called project scoping, or may be further along in the preliminary design process. **Projects listed in this section are not commitments to construct or implement an improvement.**

After needs have been identified and prioritized, the higher priority needs are included in this section. Next, a core team is formed, comprising personnel from various MoDOT departments. The core team investigates the problem or concern. The core team develops several solutions that may be either short term or long term. Some problems have no transportation or construction solution and instead may require public education or assistance through law enforcement.

Once a solution is selected, additional preliminary design work occurs. Design progresses up to a point at which MoDOT is confident the solution will properly address the problem or concern and of the improvement's cost. The potential project moves into the next stage of the planning framework, which is the prioritization and selection of projects for construction. Projects that have been prioritized and selected for construction are listed in the construction program (see Section 4.) Only the construction projects in Section 4 represent a commitment by MoDOT to build the project.

Please see Section 2-2 through 2-5 for additional discussion regarding how a need becomes a project through the planning framework process of identifying and prioritizing needs, to developing solutions, to prioritizing and selecting projects for construction.

The amount of time a potential project spends in the scoping and design phase varies. Some potential projects are more complex than others, and they might remain in the scoping and design phase for several years. This is especially true for projects such as Missouri and Mississippi River bridge replacements, new roadway construction, or converting a two-lane road to a four-lane road.

County	Route	Job Number	Improvement and Location
Bollinger	MO 34	0P0874	Scoping for new and existing alignment from 1.0 mile east of Rte. ZZ to Marble Hill City limits.
Bollinger	MO 34	0P0922	Scoping to build bridge on new alignment, grading, paving, drainage 0.6 mi. west of Rte. ZZ at Glen Allen to 1.0 mi. East of Rte. ZZ
Cape Girardeau	I-55	0P0970	Scoping for purpose and need statement of I-55 to relieve congestion and to improve connectivity along I-55 Corridor from Fruitland to south of Scott City.
Cape Girardeau	IS 55	0I0767A	Scoping and design for outer road system from East Main Street Interchange to Center Junction Interchange from 2.4 miles north of the Rtes. 61&34 interchange with Interstate 55.
Cape Girardeau	MO 25	0S0921	Scoping for widening and stabilized shoulders on Route 25 from Route 61 in Jackson to Route 74 in Dutchtown.
Cape Girardeau	US 61	0S0935	Scoping for improvements to Route 61 from the I-55 interchange at Fruitland to Route 25/61/34 intersection
Carter	MO 34	9P0456Z	Scoping for location study from Rte. 21 in Carter County to Rte. 72 or I-55 in Cape Girardeau County.
Mississippi	IS 57	0I0926	Scoping to build intersection to reduce congestion , promote economic developement 2 mi. west of Charleston at Co. Road 401
Mississippi	US 60	0S0923	Scoping for widening existing pavement with asphalt shoulders Mississippi River Bridge to Rte. I-57, 62, 60, Interchange at Charlston
Perry	MO 51	0P0964	Scoping to signalize the intersection of Rte. 51 and Edgemont Street located approximately one mile from I-55.
Perry	US 61	0S0924	Scoping to build bridge and improve safety on Apple Creek at Old Appleton
Scott	IS 55	0I0956	Scoping for interchange improvements south of Scott City. Route I-55 south of Scott City.
Scott	OR EAST OF I-55	0I0943	Scoping for outer road connection from Rte. K in Scott City north to existing outer road south of Rte. AB.
Ste. Genevieve	US 61	0P0957	Scoping for roadway improvements from Ste. Genevieve County line to Cape Girardeau County line.

**2007 - 2011**  
**Highway and Bridge Construction Schedule**  
**RSMo 21.795.2.(3)**

The Highway and Bridge Construction Schedule identifies highway and bridge projects funded for right-of-way acquisition and/or construction during the five-year period between July 1, 2006, and June 30, 2011.

**Projects on this schedule are funded and represent a commitment to implement an improvement, purchase right-of-way and or construct. Projects on this schedule with right-of-way funding only represent a commitment to buy right-of-way, not a commitment to construct.**

There are a number of assumptions and requirements that must be met for project construction to begin. Some assumptions and requirements apply to all projects. Other assumptions and requirements vary depending upon the complexity of the project. These assumptions are:

- The assumed funding levels from state and federal sources are reached.
- All environmental requirements and clearances are obtained.
- Any legal matters are resolved.
- Right-of-way acquisition and utility relocation occur as scheduled.
- Concurrence is obtained from the metropolitan planning organizations for projects in the Columbia, Joplin, Kansas City, St. Joseph, St. Louis, Springfield, and Jefferson City areas.

# PROJECT DESCRIPTION KEY

## 2007-2011 Highway and Bridge Construction Schedule

Construction contingency at a rate of three percent or at the District's discretion is applied to the construction cost in the year the project is awarded.

Four percent inflation compounded annually is applied to right-of-way and construction in program years 2, 3, 4, and 5.

No inflation is applied to the Funding From Other Sources (FFOS).

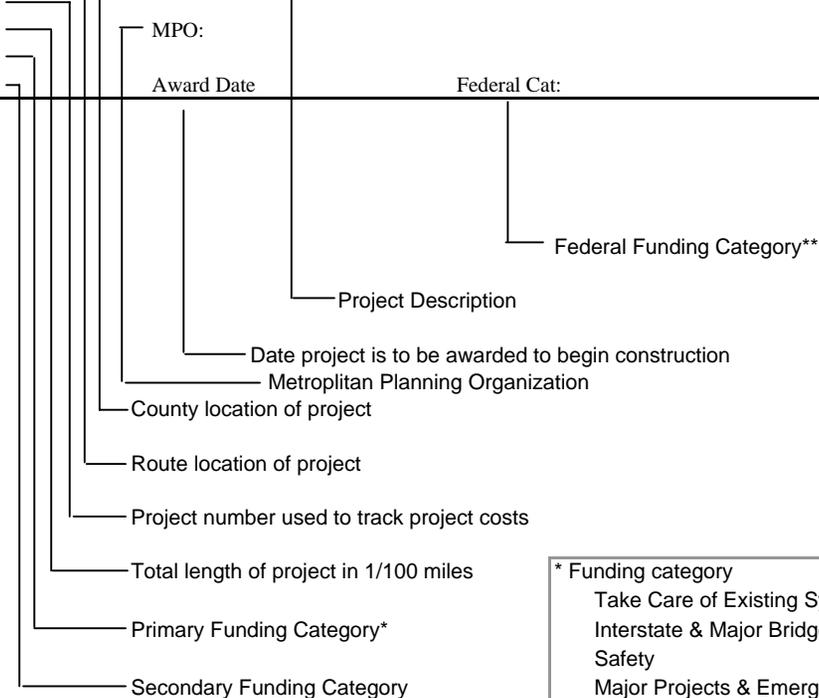

Incidentals include PE costs, CE costs, and R/W incidentals.

Project Estimate Total includes costs to date and estimated future costs.
