

ROUTE 67

WAYNE COUNTY

Based on community input received at previous meetings, MoDOT has devised a plan to address access issues at Silva. MoDOT would like to move forward with the following plan:

NEW LOW-WATER BRIDGE

A new low-water bridge will be constructed at Frazier Creek. Currently, the bridge is in the design phase.

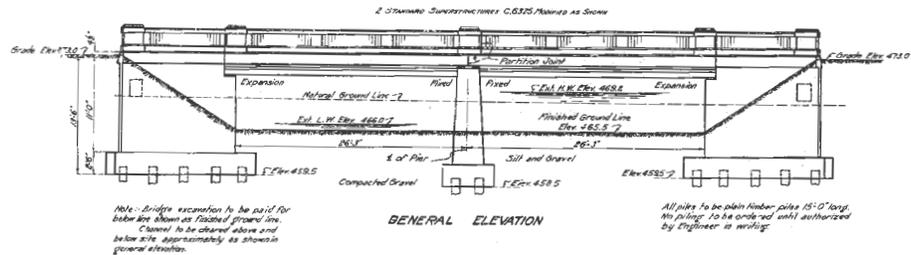

OUTER ROAD CONNECTION

An outer road will be constructed to connect County Roads 219 and 221 at the Route 67 median crossover. The contractor is currently completing the earthwork for the outer road. The excavated rock will be used as a base for future paving along the Route 67 corridor.

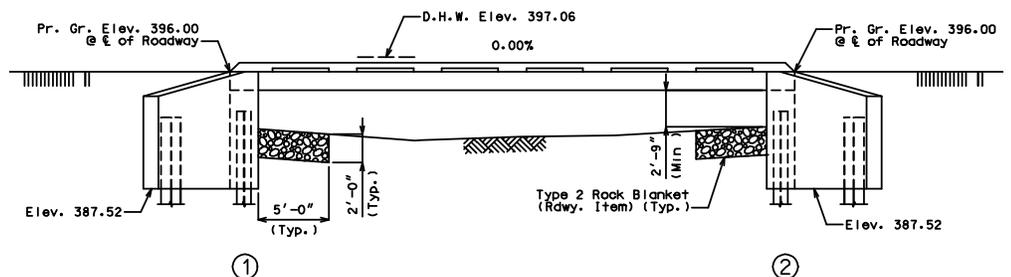

WARDS CREEK BRIDGE IMPROVEMENTS

Improvements will be made to Wards Creek bridge, located on County Road 219 near Route 34. The bridge railing will be replaced, providing an additional 3 feet of width. These improvements were included in the Route 34 contract that was awarded in July 2009. Bridge work could begin as early as this fall.

OLD FRAZIER CREEK BRIDGE

NEW FRAZIER CREEK BRIDGE
